What makes CalMax loved by millions?

Millions rely on CalMax, our powerful weapon against osteoporosis and stress. The unique blend of calcium and magnesium in CalMax, together with other essential vitamins and minerals, goes a long way toward stronger bones and better health. This hot, or cold if you prefer, lemony drink – replaces the vital nutrients your body burns up when you experience stress. Only available at Dr. Newton's Naturals.

Everyday stress takes a toll

You may not recognize the impact of stress on your overall health because it happens gradually. Little by little you lose energy, can't sleep and have back pain. Over time, stress can rob your body of calcium and magnesium and lead to debilitating health conditions. Calcium and magnesium are vital components of any healthy diet. Hundreds of body functions rely on having the proper amount of magnesium. In addition, calcium cannot be absorbed without magnesium. They work together for optimum bone health.

Calcium alone isn't absorbed by the bones as effectively as when it's paired with magnesium (right).

Osteoporosis (right) weakens bones and can lead to debilitating fractures.
