How does krill oil increase your brain power?

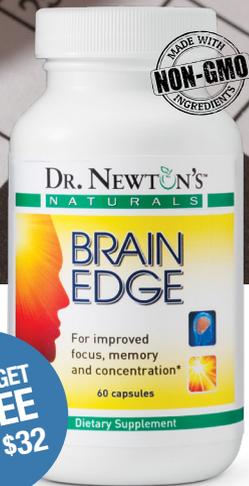

OMEGA KRILL PRO

Almost all of the brain's structures and functions are dependent on the essential fatty acids DHA and EPA, abundant in krill oil. The brain is the center of your nervous system, and is the most energy hungry of all organs. It is also nearly 60 percent fat. OmegaKrill PRO:

- Is 300% more effective than over-the-counter fish oil.
- Contains the powerful antioxidant astaxanthin, which has the rare ability to cross the blood brain barrier and maintain cellular integrity.
- Includes Omega-3 fats shown to build brain cell membranes, reduce brain inflammation, and promote new brain cell formation.
